

Is it Natural?

Have you ever wondered why some people are better athletes than you? Why your brother can play the piano better than you can - even if you are the one taking the lessons? Is it true that some people can just read better or did they just get taught better?

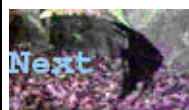

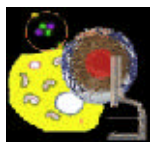

What type of plan can you come up with that would answer one if not more of these questions?

Use some of the tools we have learned about in these lessons to come up with your own answer. A pedigree chart could be a very good tool to use in finding a really good, fantastic, accurate answer.

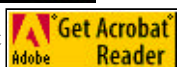

When you are finished researching decide upon a good appropriate method to report your findings. Make sure you have the question you were asking, your best guess answer to that question, your research method and all your findings put into one or more graphs, with a conclusion summarizing it all, in your method of reporting.

Ideas to make a fun project report:

- Story form
- Poetry
- Song
- Presentation
- Paper
- Examples
- Play
- Use your imagination!
 - Just make the information accurate.
